

# SO WHAT CAN YOU DO?

Although the decision will soon be made, there is still time to voice your concern regarding these proposals. Below is the list of councillors on the committee charged with deciding the outcome of WRG's planning application. Take five minutes to ask our elected officials a few questions.

- Is incineration actually the answer or just another quick fix solution?
- Surely greater efforts to implement recycling and composting are the policies of progressive nations?
- Surely other cities should be responsible for their own waste? Why should the residents of Nottingham suffer because Derby can't recycle either?
- What is more important, profit or public health?

## YOUR VOICE COUNTS! ACT NOW
