**OARC First Sunday of the Month Cinema invites you to a film screening & discussion....**
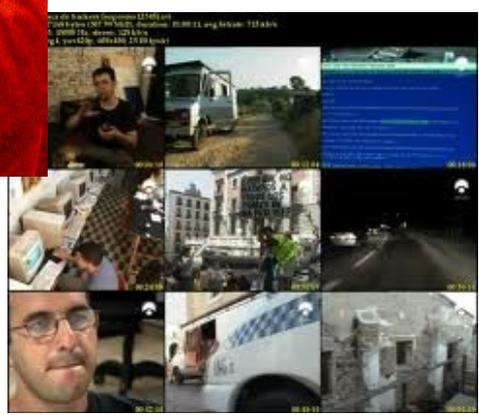

In search of the hackers...

Who are these people that call themselves hackers? Those that believe that technology exists to be appropriated and subverted for whatever purpose. Those who oppose corporate control over inventions. If you part with good money for something, is it not yours to do what you will with it? Not according to the likes of Microsoft, Apple, Sony and their ilk.

At this month's screening we'll be showing two films from Germany and from Spain.: 'Hippies from Hell' and 'Looking for hackers' (En busca de hackers) and inviting debate on discussion about whether the technology can make us free, if we know how and why to take advantage of it.....

Sunday 3rd July

Doors 7pm, films start 7.20pm, close 10pm

OARC, upstairs @ East Oxford Community Centre, OX4 1DD

Suggested donation of £2-3 on door.
